**About ATMA**

ATMA tests the candidate's verbal, quantitative and analytical abilities. The scores in each of these abilities are supplied to the participating institutions to assist them in the selection process. There are over 200 institutions that accept ATMA scores and have shown appreciation of the total transparency of the process that we follow for the test as well as the quality.

**We have sample tests for the benefit of students and a lot of digital campaigning and print media is being undertaken.**

The sample questions available at [www.atmaaims.com](http://www.atmaaims.com) will give you an idea of the nature of the test. The list of participating institutions arranged by regions and cities will facilitate the candidate's choice. All information on the test, for institutions and candidates is available on our website at [www.atmaaims.com](http://www.atmaaims.com).
